

Braided Sleeving

## FITCOFLEX®-B-PETNVH

FITCOFLEX®-B-PETNVH is a halogen-free, flexible and lightweight high quality NVH (Noise/Vibration/Harshness) protective sleeve made of PET 0.25mm monofilament and multifilament. The sleeve offers outstanding abrasion protection for hoses / pipes and wire harnesses against mechanical damage. The special construction provides excellent noise reduction / acoustic dampening properties and is particularly suited to automotive applications.

FITCOFLEX®-B-PETNVH is self-extinguishing and has an open weave structure permitting drainage and preventing condensation. Besides it offers outstanding resistance against oils, liquids, fuel, and various chemical agents and thus can extend the life time of the protected components.

**Operating temperature:** -50°C (max. -70°C) to +150°C  
**Standard color:** Black  
 Other colors on request  
**Material:** Polyethylene Terephthalate (PET)

Description	Diameter (mm)	
	Nominal Size	Maximum Diameter
